

Comprehensive Healthcare IT Professional Services Make Your HIT Systems Smarter, Faster and Easier

Professional Healthcare IT Services

Our team becomes your team working side-by-side to augment and train your clinical IT resources while maintaining peak clinical and operational efficiency. Concerned about downtime or reduced schedules when an upgrade comes your way? We're here to help.

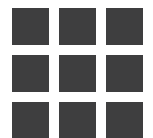

Workflow Optimization

Our experts make sure you are using your EHR and PM systems to their fullest capacity. New tools are available with each upgrade expanding the choices you have – but also adding complexity. Let us help you make your systems **Smarter and Faster!**

MACRA and Other Regulations

Industry regulations including Meaningful Use, MACRA, MIPS, ACO, PCMH, and CPC+ can add complexity requiring new workflows, hardware, software, and infrastructure. We can help you navigate the regulations and meet your goals **Easier and Faster.**

Infrastructure

eMedApps provides the physical, environmental, network, and infrastructure resources you need to access, manage, and deliver patient information securely all day, every day. From architecture to performance tuning, let us make your systems work **Faster.**

Hosting

eMedApps provides healthcare delivery organizations with EHR and ancillary application hosting services that fit any need. With data centers across the U.S., and a deep knowledge of your HIT systems, we deliver the perfect solution to make using your systems **Easier.**

Data Conversion

EHR conversions, mergers, and other health IT system transitions are commonplace for clinics and community health centers. Our Care Connectivity Platform™ streamlines the migration or conversion of patient data from one health IT system to another. We help you get the right data, to the right place, at the right time – **Easier and Faster.**

Contact us to learn more about our HIT optimizations.

Certified NextGen EHR Services

Take Your NextGen Systems to the Next Level

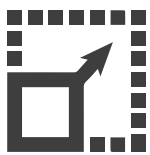

NextGen EHR and PM Implementation

From the initial strategy definition to setup, customization, training, and go-live support, our team of experts will help you avoid pitfalls and reach the finish line. We have provided NextGen services for over 15 years – we will ensure that the implementation of your systems is **Smarter, Faster and Easier**.

NextGen EHR and PM Workflow Audits

We'll help you determine if you are using your NextGen systems in the most efficient way. With each upgrade new tools are offered and we will help you implement the ones that make the most sense for your clinic, making your system **Smarter and Easier!**

NextGen Upgrades

eMedApps is one of the longest-standing providers of certified NextGen upgrade and conversion services. Whether your clinic is a “vanilla” template user or has 31 flavors of customization, our team will make your upgrades **Faster and Easier**.

Application and HIT Support

As a NextGen EHR Certified Partner, our help desk is managed by a team of NextGen-certified professionals. Our team offers ongoing optimization, maintenance, management, upgrades, and comprehensive support for your software, hardware, and networks. We make supporting your systems **Easier!**

NextGen Template Customization

eMedApps has been providing custom template assistance for NextGen users since 2001. We have developed full sets of clinical templates and we can make simple changes for others. We will make your system **Smarter and Easier** for your clinicians to use.

These eMedApps products compliment our NextGen Professional Services and are designed to make your NextGen systems Smarter, Faster and Easier.

Smart Visit

Clinician's tool for pre-visit/huddle planning, quick navigation and smart view of what needs to be completed.

NEW! Enrollment Manager

Automate processing of enrollment files and track outreach.

EHR Operations Dashboard

Find things that have been overlooked, ensure visits are complete and verify that systems are being used properly.

NEW! Appointment Link

Patient self service appointment using appointments using mobile devices or the Amazon Echo.

Automatic Care Guidelines

Automatically reviews your entire patient population each night and applies the guidelines that should be there.

NextGen Share CCD Management Solution

Automatically filter, manage, and process NextGen Share incoming and outgoing documents.

NEW! Provider Productivity Analyzer

View provider productivity and optimize schedules.

Batch Write Off Utility

Save staff time with an easier bulk write off process.

Batch Eligibility Tool

Checks eligibility for past and future visits, re-bills and sets alerts as appropriate automatically.

NEW! Auto Faxing Solution

Streamline your faxing workflow and send an automatic fax to each CC provider when you sign off on a document.

Custom Lab Template

Each provider can create and maintain their own lab templates without IT assistance.

CareFinity™ Business Continuity

View charts and add notes, even if your EHR is unavailable, on workstations and mobile devices. Archive old charts.
